EDUCATION

Aalto University

Doctor of Science (technology) in Computer Science

Espoo, Finland

Dec. 2020 – Aug. 2025

European Innovation Technology (EIT) Digital Master program

Europe

Joint master in two universities and major in Human and Computer Interaction Design

Sept. 2018 – Sept. 2020

- Exit year: University of Twente, the Netherlands
- Entry year: Aalto University, Finland (With scholarship)

University of Science and Technology Beijing

Beijing, China

Joint master in two universities and major in Human and Computer Interaction Design

Sept. 2014 – June 2018

- Bachelor of Engineering in Internet of Things
- Minor: Bachelor of Economics in Financial Engineering

SELECTED PUBLICATIONS

AWARDS AND SCHOLARSHIP

Nokia Bell Labs Scholarship 2024

- Awarded scholarship for academic excellence in the Information Security track.

Doctoral incentive scholarship 2025

- Awarded a scholarship for successfully completing the doctoral thesis.

ACADEMIC SERVICES AND TEACHING

Conference Services

- Reviewer: SOUPS 2022, SOUPS 2025 posters, CHI 2024–2025, CSCW 2024
- Associate Chair: CSCW 2025 Posters, CHI 2026
- PC member: ICHEC 2025
- Volunteer: Ubicomp 2025 (Day captain)

Invited talk on LLM app security workshop

Trondheim, Norway

- Invited speaker at LLMapp Workshop, ACM International Conference on the Foundations of Software Engineering FSE 2025

Teaching assistant in course *Research method in psychology engineering*

Spring 2023

- Prepared the course materials
- Hosted two exercise sessions on data collection and research ethics

Teaching assistant in course *Security Engineering*

Fall 2021 and Spring 2022

- Prepared the course materials
- Hosted one tutorial session on detecting malicious web addresses using machine learning models (Python)
- Graded course assignments and final project

Master thesis supervision | *Python, Azure, ReactJS*

Jan. 2021 – Aug. 2021

- Supervised a master thesis on developing a research tool (Chrome extension) for studying browsing behavior and conducted a lab study together (N=30)
- Supervised a master's thesis on a qualitative study (N=20 of household gaming, which developed into a publication at CHI PLAY 2025.)

Tutored three students in seminar course

Spring 2021

- Project one: Suicidal Ideation Predication on Social Network using Semantic Analysis
- Project two: Traffic flow prediction using twitter data
- Project three: The balance of individual freedom and crime in cryptocurrency transactions

WORKING EXPERIENCE

Master thesis in cooperation with Nokia HQ, Finland

Feb. 2020 – Aug. 2020

Anomaly detection for distributed Linux system logs

supervised by Prof. Gwenn Englebienne, University of Twente

- Conducted literature review on latest anomaly detection techniques
- Collected log data (240,000 lines/samples per log file and 20 files in total are used for this study) from Jenkins CI/CD platform, clean and process data with NLP algorithms
- Applied ML models (PCA and LSTM) for anomaly detection with Python
- Developed a front-end webpage to visualize anomalies and other statistics

Summer internship, Nokia HQ, Finland

May 2019 – Aug. 2019

Market scouting data management and visualization

- Organized international workshops (UK, US, and Finland) to specify requirements and made prototypes
- Developed a web-based automation BI tool to collect and analyze market scouting data for 5G commercialization team (Sharepoint, MS SQL, ReactJS)
- Created a real-time report with PowerBI to visualize project progress

Intern, ABB Corporate Research Centre China

Aug. 2017 – Jan. 2018

Experiment on sensor performance and temperature monitoring

- Conducted literature review on antennas and performance of different types of sensors
- Conducted RFID & NFC experiments for temperature monitoring of switchgear
- Developed an automation tool to process and analyse experiment data with Matlab

TECHNICAL SKILLS

Languages and frameworks: ML, NLP, Python, R, SQL, React JS, Git

Research platforms: Prolific, LimeSurvey, Webropol, Atlas.ti

Research methods and analysis: Interview, Survey, Diary study, Survey study, Lab study, Thematic analysis, Grounded theory, Statistical analysis

HOBBIES AND INTERESTS

Instruments: Guzheng (13 years), Piano, Guitar

Sports: Badminton, Dancing, Downhill skiing

Languages: Chinese (native), English (professional working efficiency)
